FROM FAR JAPAN.

From far Japan a pretty fan
Hath come my lady's joy to plan,
With rapture her sweet face to scan
From far Japan.

To touch the velvet of her hand
It journeyed over sea and land,
To flutter 'neath her lustrous eyes
Forsook the glow of orient skies.

And yet I know it must be so—
The fan is happy. I would go
For her forever to and fro
From far Japan.

—Robert Loveman in New York Tribune.

MR. HARBERTON.

"No, old man, of course I don't believe in spirits or nonsense of that sort. Yet something that I never quite understood once happened to me. You all know about that kind of thing, and perhaps you can explain it.

"After I left Oxford—without honors—I spent a lot of time loafing at home. It was a slow part of the country, nothing much to shoot, and mother, an invalid, couldn't stir out of her room.

"I didn't mean deliberately to deceive her, but what life is there for a healthy young man, stuck down there, hanging round a sickroom from one month to another? He must come to the surface to breathe, whether the air be wholesome or not. At first, when I cut for a day or two, I would call it business, but the mater knew old Findlay had always managed the investments, and the money and all that. So when I took a run up to town and didn't return at night I had to invent a friend and to pretend I had put up with him. That came as easy as lying always does. Only mother, who had little to interest her, insisted on hearing all the particulars—how my friend looked, what he said and the rest. I got into a lot of tight places at the start, till I thought of a man I had known two years before and kept to a description of him.

"Harberton was his name. He was cruising on the Mediterranean for his health when I was on the Sayonara with the Blakes. He was a queer chap—believed in occultism and rot of that sort, and we all laughed at him for it. We never thought him ill, merely lazy. One moonless night after dining on his yacht we lounged on deck, with those myriads of stars making us feel jolly small.

"Harberton lay on a steamer chair—he used to pass the night there—gazing at the sky with his inscrutable eyes. We had all been laughing and chaffing when he came on deck. But somehow the immensity of it all had sobered us, and we were quiet and solemn, when Harberton, pointing heavenward, said in his languid, affected drawl, 'Tomorrow I shall know what these have to tell.' We believed it to be merely one of his poses, but in the morning we were horribly startled by the news that he was dead. He had died, lying there in his chair, during the night

Well, Harberton's name occurred to me when I was forced to invent a story to satisfy mother, and, though I couldn't write a story to save my life, whenever I began jawing about him everything came quite pat. Often I blessed his memory when I could go off for a few days, have a good time and return to find mother quite pleased.

"This went on for awhile, till mother began to bother me with a request to ask 'my friend' to visit us at Frampton Glemsford. I tried hard to get her off the notion. I said that he was busy or ill; that entertaining guests would hurt her, and all manner of things. But she seemed set upon it—talked nothing else. The doctor said it was a sick fancy; that in her weak state any craving must be humored.

"Thus cornered, I wrote a letter urging 'My dear Harberton'—I hadn't the remotest idea what his Christian name was—to come to us even for a day. Mother insisted upon adding a line—she who had not penned a word for months—begging him to come that she might have an opportunity of thanking him for his friendliness toward her son. I did feel mean when I took the invitation into another room and burned it.

"I would have given anything to have been able to produce an impostor. But Harberton had been described so minutely the mater knew him by heart, as it were, and would have detected a fraud at a glance. Besides, I have never seen any one who at all resembled him. I told her I had heard from him that he was coming. I dreaded she would ask to see his letter, but it chanced to be one of her bad days, and she didn't.

"Next morning he was to arrive. I meant to fake up a telegram somehow, giving an excuse for his absence when I went to the station on pretense of meeting him. My mother was strangely well that morning. Her customary lassitude and pain had vanished. She was reclining on a couch drawn close to the open window. Her cheeks were almost rosy, and there was a lace arrangement over her white hair that made her look prettier than I had ever seen her. She was all impatience to see Harberton and hurried me off to the station half an hour too soon.

"It was a lovely June day, and our private footpath to the railway lay through shady ways, but I was wretched and ashamed, wishing the thing over. The remembrance of the sparkle in mother's eyes, even of the effort she had made to appear in full toilet, disturbed me. Of her health the doctor had spoken gravely on the night before. With a heart affection such as hers might not the shock of Harberton's nonappearance be too much for her?

"I suppose one ought to believe in Nemesis or retribution or that sort of thing. I don't much; but, I confess, that summer morning I came nearer suffering for my sins than I had ever done before or have ever done since.

"Now, you needn't believe what follows unless you like. I often doubt it myself. I knew something was to happen as I heard the sound of the coming engine, and as I watched the train sweep around the curve of the line I wanted badly to run away, but couldn't. Of course there are seldom many passengers for Glemsford. This time there was but one. I caught a glimpse of his face at the window of a carriage where he sat alone, and my heart seemed to stop beating. A moment later he stood before me. It was Harberton. He was exactly as I remembered him. There was nothing in his appearance or manner to account for the dread in me. We exchanged greetings, but no word passed between us. We traversed the leafy lanes as in a dream, but they and myself were visionary—he alone was real. And all the time the memory of the telegram I had omitted to send kept recurring to my half paralyzed brain.

"I knew it could not be Harberton, yet felt convinced it was none other. Dull wonder whether or not mother would see as I did ran through my mind, but I was in reality too stupefied to be capable of anything like consecutive thought.

"The path we trod led through the orchard into the rose garden, whereon the low windows of my mother's summer parlor opened. As we entered the garden she saw us—saw him—and waved her thin hand in welcome. And Harberton, or what I took to be Harberton, who till then had done nothing but make me dread his presence, waved in return courteously, almost gayly.

"I can tell you how that day passed. It seemed like a long drawn out nightmare. I kept saying to myself: 'I am asleep. I shall awake soon.' Harberton sat in my mother's sad, darkened room, talking of me, as I gathered while pacing restlessly within and without, or smoking in a chair outside the window. She seemed to speak anxiously about my future—I suppose, like most only sons reared by mothers, I had been rather wild—and he appeared to reassure her. She was quite soothed and happy in his company. I moved about. I would go to the stables to speak to the men or wander aimlessly about, but there was ever that awful sense of all being an illusion. I fancied I must be mad, and I feared the sound of my own voice.

"It was a perfect day, still and balmy, the air being heavy with the fragrance of the roses, but to me it seemed endless. Still, it came to a close at last. In the gloaming Harberton bade mother farewell. She blessed him as they parted, I standing dumbly by, and he, holding her hand, said gently, with his old, soft drawl, 'I shall return soon.'

"Harberton went as he came, through the byways carpeted with moss and overhung with brier roses, still holding no speech with me, who followed dog-like. Midway down the lane the evening haze caught radiance from a shaft of the sunset, and into the glory of it he passed alone. For a moment I dared not enter. When I did, he was gone.

"Well, in a short time I was able to laugh at the occurrence as absurd. Mother seemed to feel happy in some sort of delusion. I didn't care to ridicule. She never asked me to send for Harberton again. She always said, 'When it is time, he will come.'

"She got more fragile daily. One night she looked so ethereal that, fearing to leave her, I sent the nurse to bed and staid in her room. All was hushed, and I must have dozed off, to be roused by mother's voice saying gladly: 'Oh, you have come for me! That is so good of you!'

"The light of the harvest moon filled the room, eclipsing the feeble glow of the night light.

"Mother had raised herself to a sitting position and was looking up eagerly, joyfully, her thin hands extended. Bending over her, I saw distinctly the figure of Harberton. Starting forward, I rushed toward her, but before I could reach her side she sank back inert. Harberton had vanished, and the moonlight revealed only her dead face lying peacefully smiling on the pillows.

"That's a lot of years ago now, but I've never been able to reduce it to common sense. Can you, old chap?"—Black and White.

Crystal Sky Columns.

An explanation of a curious optical phenomenon sometimes witnessed on frosty nights which is called the "pseudo aurera," is offered in Science by Mr. Goode of the Chicago university. The phenomenon takes the form of beautiful columns of silvery light standing over electric arc lamps and other bright lights and sometimes appearing almost to reach the zenith. Mr. Goode says that sometimes the evening star has a bright shaft below as well as above, while the rising moon stands in a broad column of light. These appearances are due to floating frost crystals which keep their reflecting faces horizontal. On examination he found that the crystals concerned in the exhibition were thin six sided plates of ice, never more than one millimeter in diameter. When the wind blows, these little plates are upset, and the columns of light, caused by reflection from their surfaces, disappear.

A Pin In His Heart.

The old time idea that the slightest touch of a foreign substance on the heart means certain death was shattered years ago. One of the most remarkable cases ever heard of, however, was that described in a paper read before the Association of American Physicians some years ago by Dr. Peabody. It was of a case where a pin was found in a human heart after having been there for an indefinite period. The point of the pin was distant above five millimeters from the external surface of the heart. The pin seemed eroded and was broken by the scissors in dissection, without becoming displaced. There was no evidence of recent local inflammation, but that part of the heart in the neighborhood of the protruding head of the pin was greatly thickened and snow white and firmly adherent to the edge of the head.

Ordinance No. 53.

AN Ordinance calling a special election in the City of Sonoma, submitting to the qualified electors of said city at said election the proposition to incur a municipal debt aggregating Twenty-two Thousand Five Hundred Dollars for the object and purpose of acquiring, constructing and completing a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water, the cost of which proposed waterworks will be too great to be paid out of the ordinary annual revenue and income of said City of Sonoma; providing for the issuance of the bonds of said city for said amount if said proposition be accepted by the qualified electors thereof as required by law; prescribing the time and manner of holding such election, and the voting for or against the proposition to incur said indebtedness and otherwise providing for and regulating said election.

The Board of Trustees of the City of Sonoma do hereby ordain as follows:

SECTION I.

Whereas, It appears to the satisfaction of the said Board of Trustees, and is by the said Board hereby determined and adjudged that the said Board of Trustees, did by ordinance duly passed by a vote of more than two-thirds of all the members of said Board of Trustees, on the seventeenth day of March, A. D. 1897, in the City of Sonoma, at a regular meeting of said Board of Trustees, then and there duly held, determine and adjudge that the public interest and necessity of the City of Sonoma, demand, and the public interest and necessity of said city do in fact demand the acquisition, construction and completion by said city of a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, wells, tanks and machinery for the same, and connected with the use thereof, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use, and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes; and did also in said ordinance determine, and do now determine, that the cost of the acquisition, construction and completion by said city of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, is too great to be paid out of the ordinary annual income and revenue of said city; that said Ordinance No. 52, so passed as aforesaid, was thereafter and on the seventeenth day of March, A. D., 1897, duly approved in writing by the Executive of said City of Sonoma, viz: by the President of the said Board of Trustees; and that said Ordinance No. 52 was thereafter in accordance with the order and direction of said Board of Trustees, by the City Clerk caused to be published, and was duly published as provided by law, for two weeks consecutively, to wit: Commencing on the 20th day of March, A. D., 1897, and ending on the 3d day of April, 1897, in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation published in the said City of Sonoma, and as often as said newspaper was published during that time, to-wit: On the 20th day of March, 1897, the 27th day of March, 1897, and on the 3rd day of April, 1897, such dates being the days of publication of said newspaper; and whereas said Board of Trustees did, by resolution duly passed by the vote of more than two-thirds of all the members thereof, authorize the Committee on Water Works to secure the services of a competent engineer to assist them in their efforts, and whereas said committee did authorize, direct and employ Otto Von Geldern and C. E. Grunsky, competent civil engineers, who had theretofore had successful experience in the work of the acquisition, construction and completion of permanent systems of waterworks to make, prepare and submit to said Board of Trustees plans and estimates of the cost of the acquisition, construction and completion of a permanent system of waterworks to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water; that the said Otto Von Geldern and C. E. Grunsky did make, prepare and submit to the said Board of Trustees plans and estimates of the cost of such a system of waterworks; that the said Board of Trustees did, by resolution duly passed by a vote of more than two-thirds of the members thereof, receive, accept and approve said plans and estimates; that as shown by said plans and estimates and as is now hereby determined, the maximum cost of the acquisition, construction and completion of a permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will amount in the aggregate to Twenty-two Thousand Five Hundred Dollars; that the entire assessed value of all the real and personal property of and in said city is not in excess of three hundred and twenty-five thousand dollars; that the entire annual income and revenue of said city has hitherto been and now is the sum not to exceed Two Thousand Dollars; that there is now no outstanding, unpaid indebtedness of, or due from, said city; that the cost of the acquisition, construction and completion of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will not exceed and will be less than 15 per cent. of the assessed value of all the real and personal property of and in said city.

SECTION II.

Now, therefore, in consideration of the premises, and in pursuance of the acts, ordinances, resolutions and proceedings aforesaid, and of the laws and statutes in such cases made and provided, a special election is hereby ordered and called to be held and conducted in and for said City of Sonoma, California, at the time and in the manner hereinafter fixed, designated and described; at which special election there shall be submitted to the qualified voters of the said City of Sonoma, and there is hereby submitted to the qualified voters of said city to be voted upon at said special election as hereinafter provided, the proposition of incurring a debt amounting to Twenty-two Thousand Five Hundred Dollars by said City of Sonoma, for the acquisition, construction and completion by said city of said permanent system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof by the said City of Sonoma and its inhabitants.

SECTION III.

The objects and purposes for which said indebtedness is proposed to be incurred are as follows: The acquisition, construction and completion by said City of Sonoma of said permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same and connected with the use thereof as aforesaid, and to do and perform all acts and things whatsoever necessary for the construction and completion of public waterworks for the said city and its inhabitants, and for the construction and completion of said waterworks, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes.

SECTION IV.

The estimated cost of the acquisition, construction and completion by said city of said system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof and of all other things and acts whatsoever necessary for the proper use thereof, and of the whole of said contemplated system of water works is Twenty-two Thousand Five Hundred Dollars.

SECTION V.

That the acquisition, construction and completion of said system of water works by said city is necessary for the following reasons:

First—That said city has no water works in its possession or under its control.

Second—That the supply of water now and hitherto furnished to said city and its inhabitants is and for many years last past has been wholly insufficient for domestic use, for the use of the Fire Department, sprinkling streets, flushing sewers, and other great necessities, and is liable to give out entirely.

Third—That the water now and hitherto supplied to said city and its inhabitants by the existing water company is unsuitable for domestic use.

Fourth—That it is necessary and for the best interests of said city, and the inhabitants thereof, and the public interest and necessity demand that a sufficient supply of pure, fresh water be furnished said city and the inhabitants thereof for domestic use, sprinkling streets, flushing sewers, for the Fire Department and other great necessities.

SECTION VI.

It is hereby determined and declared that the cost of the acquisition, construction and completion by said city of said system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for supplying water, structures, aqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof is and will be too great to be paid out of the ordinary annual income and revenue of said city, and therefore it is necessary for said city to incur a debt amounting to Twenty-two Thousand Five Hundred Dollars, and to issue bonds of said city to pay for the cost of the acquisition, construction and completion of said system of waterworks and to pay the cost of all thereof.

SECTION VII.

That bonds of the city of Sonoma of the character of bonds known as "serials" to the aggregate amount of Twenty-two Thousand Five Hundred Dollars will be issued to pay for the cost of the acquisition, construction and completion of said system of waterworks if the proposition to incur said municipal indebtedness by said city for the cost of such system of waterworks be accepted by the qualified voters of said city at said special election; and said bonds shall be issued and made payable in Gold Coin or lawful money of the United States in the manner following: One-fortieth part of the whole amount of said indebtedness so incurred shall be payable each and every year on a day in each year, and at a place to be specified therein, and to be hereafter fixed by the Board of Trustees of said city. Said indebtedness, or any unpaid portion thereof, shall bear interest, at the rate of six per cent. per annum, which interest shall be paid in semi-annual installments, payable on certain days in each year, and at a place to be specified in said bonds and to be hereafter fixed by the Board of Trustees of said city.

SECTION VIII.

Said special election hereby called as aforesaid, shall be held on Monday the twelfth day of July, 1897, and shall be held and conducted, and the votes thereat received and canvassed, and returns thereof made and the result thereof ascertained and determined as herein provided and according to the law governing such elections in the City of Sonoma; and the polls for such election shall be and remain open from sunrise of the said twelfth day of July, 1897, to the hour of five o'clock in the afternoon of said day.

SECTION IX.

Notice of the said special election shall be published for not less than two weeks prior to said day of election, and after the final publication of this ordinance as hereinafter provided, in at least one of the newspapers published in the City of Sonoma, in accordance with the terms and provisions of the statutes in such cases made and provided.

SECTION X.

The ballots which shall be used at said special election shall be of the same character and form as ballots required by law to be used at municipal elections in said City of Sonoma, except as hereinafter otherwise provided. Each of said ballots shall have printed thereon the following caption or heading, to-wit: "MUNICIPAL TICKET," and shall have printed thereon and under said caption the following words, to-wit: "Proposition for incurring an indebtedness by the City of Sonoma to the aggregate amount of Twenty-two Thousand Five Hundred Dollars for the acquisition, construction and completion by said city of a permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks, machinery for the same, and all other things necessary for the proper use thereof, as set forth in Ordinance No. 52 of said city." Underneath the last foregoing words upon each of said ballots shall be printed the following: "To vote for or against incurring said indebtedness stamp a cross (X) to the right of and against the answer you desire to give." Underneath which shall be printed in one line the following: "For incurring the indebtedness," to the right of which shall be printed in one square the word "Yes" with a blank square to the right thereof, and immediately below the same there shall be printed in one line the following: "For incurring the indebtedness," on the right of which there shall be printed in one square the word "No," with a blank square to the right thereof. Every voter desiring to assent to, and accept the said proposition for incurring the said indebtedess set forth herein shall in voting at said election stamp a cross (X) in the blank square to the right of the word "Yes" printed upon his ballot as aforesaid. And every voter desiring to reject the said proposition of incurring said indebtedness shall in voting at said election stamp a cross (X) in the blank square to the right of the word "No" printed upon his ballot as aforesaid.

SECTION XI.

The place of voting at said special election shall be in the building known as the City Pavilion, situated in the public Plaza in said City of Sonoma; and the officers to conduct said election are respectively defined, designated, selected and appointed as follows, to-wit: Judges, L. Litzius and A. Bulotti; Inspectors, V. Jensen and J. D. Wagnon; Ballot Clerks, Jas. H. Albertson and Peter Keil; Tally Clerks, L. Breitenbach and H. C. Luttgens. In case any of the officers above appointed to conduct said election do not attend at the opening of the polls on the morning of the election, the electors of the said city present at that hour may appoint or supply any competent person from among themselves to fill the place of such absent member thereof.

All persons qualified by law to vote at municipal elections in said city shall be qualified to vote at said special election.

XII.

As soon as the polls are finally closed at said special election, the officers of election shall canvass the votes cast at said special election for and against incurring said indebtedness hereinbefore mentioned, as nearly as practicable in the manner provided by law for canvassing votes for municipal officers at elections held in the city of Sonoma. The returns of said special election shall be made out and signed in the usual form by the said officers of election, and shall be deposited with the City Clerk of said city together with the ballots cast at said special election.

The Board of Trustees of the City of Sonoma shall, as soon as the said returns and ballots have been deposited with the said City Clerk as aforesaid, canvass the returns in the manner provided by law for canvassing the returns of elections of municipal officers in said city. If, upon the canvass of said returns as aforesaid, it shall be ascertained and determined that at least two-thirds of the qualified voters of said city voting at said special election, have voted in favor of the said proposition for incurring the said indebtedness, then bonds of the City of Sonoma, in the sum of Twenty-two Thousand Five Hundred Dollars, shall be issued by said city as by law provided, and hereafter prescribed by the said Board of Trustees of the City of Sonoma.

SECTION XIII.

Immediately upon the passage of this Ordinance by said Board of Trustees and the approval thereof by the Executive of said city, to wit: the President of the Board of Trustees, this ordinance shall be published once a week for two weeks consecutively in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation printed and published in said City of Sonoma, and the City Clerk of said city is hereby ordered and directed to cause such publication of this ordinance to be made as aforesaid.

Passed this second day of June, 1897, by the following vote:

Trustee Seipp, voting aye.
Trustee Hartin, voting aye.
Trustee Modini, voting aye.
Trustee Bulotti, voting aye.
Trustee Poppe, voting no.

Approved this 2nd day of June, 1897.

J. H. SEIPP,
President Board of City Trustees.

A LESSON WITH A MORAL.

THE attempt made to burn this town at an early hour last Wednesday morning ought to prove a warning to each and every one of our business men and property-owners. If the incendiary is allowed to remain in his present field of operations without an effort to circumvent him there is no telling when he may succeed in converting the business portion of Sonoma into ashes. It certainly behooves our citizens to take time by the forelock and engage the services of a night watchman. If this is not done no one in this community is safe from the torch of the incendiary, who in the past few weeks has made two attempts to burn the town.

Our water supply, as every resident knows, is inadequate to fight fire. This being so we would advise every voter to set petty selfishness aside, and cast a ballot in favor of the new water system at the election which will take place in the near future. In view of the several attempts recently made to fire the town, which is virtually at the mercy of the fire fiend in so far as water is concerned, we rise to remark that it ill becomes the Chief of the Volnnteer Firemen and his able assistant, the Foreman of the Hose Cart, to oppose the present and only feasible proposition to supply this town with water which will give them something to fight fire with. Oh, consistency, thou art indeed a jewel. Have they forgotten the recent total destruction of the beautiful Catholic Church edifice, when their hands were practically tied for want of water, and the several attempts to burn the town the past few months? The opposition of these firemen to an improved water system is beyond our comprehension. We don't understand it at all.

H. H. GRANICE, editor and proprietor of this paper, has returned from a two-weeks' sojourn in Mendocino and Lake counties, fully restored to health. He will get into the editorial harness next week with renewed energy and will in the future, as in the past, work for the best interests of Sonoma, as against those who have private axes to grind at the expense of the general public.

GLEN ELLEN ITEMS.

A dance has been advertised to take place at the Mervyn Hotel on July 3rd.

Summer boarders and campers are arriving daily and resorts in this vicinity are crowded.

Jno. M. Hendley has decorated his saloon with evergreens, greatly improving its appearance.

J. Chauvet is replacing the old water pipe leading from the reservoir with a new and larger one.

It is the intention of the School Trustees to have the building painted and the grounds improved during vacation.

A Native Daughter made her appearance at the home of Mr. and Mrs. Henry J. Chauvet last Monday. All are getting along nicely and we hereby extend congratulations.

Tuesday afternoon Col. Parker, Julius Martens and Phillip Brand, while driving into town from the Clark ranch, had a narrow escape from serious injury. They were seated in a spring wagon with one horse attached and while leisurely jogging along near Graham's canyon the bridle bit broke and the horse started at a break neck gait toward town. Julius landed on a pile of rocks with a skinned nose and his side stove in, while the Colonel escaped with the loss of part of one ear, his pipe and spectacle case. Phillip, being young and active, came out of the mix-up uninjured. The horse, after running nearly a mile, was secured near Kohler's gate.

REMINGTON.

Glen Ellen, June 25, 1897.

Mrs. Angiolina Sanguinetti of Mokelumne Hill, Calaveras county, accompanied by her daughter, Miss Clara, is the guest of her brother, City Trustee Modini. On Tuesday Mr. Modini and his sister visited their brother, D. Modini, a well-known business man of Petaluma, where they enjoyed a pleasant reunion.

SCHELLVILLE SIFTINGS

Mrs. Ed. Burns of the metropolis is visiting with her mother Mrs. Donahue.

Mr. and Mrs. Ernest Klevesahl of San Francisco are the guests of Mrs. Stademan.

W. H. Merriam has returned to the McMackin place after an absence of several months.

Mrs. Mallon came over from Lakeville one day this week and visited her son John of Vollmar's Hotel.

Mrs. Bentham came up from San Francisco this week and was the guest of Embarcadero friends several days.

The little ten-year-old daughter of Chas. Wilson, who had her right leg broken, is improving nicely under the care of Dr. Walliser.

The base ball game which was to have been played last Sunday between the Buena Vista and Schellville nines was postponed, on account of the rain, until next Sunday.

TRILBY.

Schellville, June 25, 1897.

COUNTY GLEANINGS.

E. P. Colgan was taken suddenly ill in Santa Rosa last Sunday while visiting his mother.

G. N. Whitaker of Bennet Valley met with an accident on Friday of last week which nearly proved fatal. He went out into a corral early in the morning and was attacked by an infuriated jersey bull. The animal knocked him down, gored and trampled him, and would in all probability have killed Mr. Whitaker had not his son Mark happened on the scene. The latter drove the mad animal away and carried his father into the house. Shortly afterward the bull also attacked Mark, who procured a rifle and shot the vicious creature.

A new set of rules have been adopted by the Superior Court of this county, which are to go into effect July 1st. As they stand now, hereafter all criminal cases, civil suits numbered with an even number, and insolvency matters will be heard in Department Two. In Department One will be heard probate matters, civil cases numbered with odd numbers, and appeal cases from lower courts. Heretofore the criminal cases have all been heard in Department One. After June 30th Judge S. K. Dougherty will occupy the bench in Department One and Judge A. G. Burnett in Department Two. The change of rules and exchange of departments practically continues the hearing of all criminal cases before the latter Judge, who has presided in those matters since entering the office. Another change is with reference to jurors' fees in civil cases. Upon the commencement of a trial both plaintiff and defendant must deposit the sum of $24 with the Clerk and make a similar deposit each day during the continuance of the trial. In event of a disagreement the party who called for a jury must pay the fees. The other contingencies are covered by the statutes.

Weather and Crops.

Considerable damage was done to the hay crop in Sonoma Valley by the late rain, and if the present weather continues much longer there is no telling where the injury to farmers will end. Most of the hay that has been cut is still stacked up in the fields and mildew will be the result unless we have some good warm weather from now on.

The cherry crop has also suffered considerable on account of the rain, but the orchardists should feel fortunate that the unwelcome visitor from the skies did not put in an earlier appearance, as most of the cherries have already been picked.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Tossed on the Foaming Billows.

You may never have been, but if you cross the Atlantic, no matter how smooth the watery expanse, without sea sickness you are—well, a lucky voyager, that is all. Old tars who have spent their lives on the ocean waves, who were almost born, so to speak, with their "sea legs on," suffer now and then from sea sickness in very temestuous weather. Sea Captains, tourists, commercial travelers and yachtmen say that there is no finer safeguard against nausea than Hostetter's Stomach Bitters, and it has been equally reliable as a preventive by invalids who travel by steamboat and railroad, and who sometimes suffer so much in those conveyances as ocean travelers do in steamships. Biliousness, constipation, sick headache and disorder of the stomach caused by oppressive climatic influences or unwholesome or unaccustomed food or water, always yield to the Bitters speedily. This popular medicine also remedies rheumatic, kidney and nervous disorders, and the infirmities infirmities incident to increasing years.

The Wonders of Science.

LUNG TROUBLE AND CONSUMPTION CAN BE CURED.

AN EMINENT NEW YORK CHEMIST AND SCIENTIST MAKES A FREE OFFER TO OUR READERS.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send THREE FREE BOTTLES (all different) of his New Discoveries to any afflicted reader of the INDEX-TRIBUNE writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he consideres it a simple professional duty to suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertions that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to consumption, which, uninterrupted, means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the INDEX-TRIBUNE.

LEGAL.

Sheriff's Sale,

Under Execution.

W. G. Anderson, Plaintiff. vs. Alice Hammond, Defendant.

By Virtue of an Execution, issued out of the Superior Court of the City and County of San Francisco, State of California, on the 14th day of May, A. D., 1897, and to me directed and delivered, for a judgment rendered and entered in the Jusiice's Court of said City and County, on the 18th day of March, A. D., 1897, in favor of W. G. Anderson, plaintiff, and against Alice Hammond, defendant, for the sum of Ninety Eight and 50-100 ($98.50) Dollars, principal, lawful money of the United States, with interest thereon, from the date thereof at the rate of seven per cent. per annum till paid, together with costs and disbursements at the date of said judgment, amounting to the sum of $14.30. The whole amount aggregating $112.80 lawful money of the United States, and the same to be at interest at the rate of seven per cent. per annum till paid.

Now, therefore, in pursuance of said judgment, and execution issued and to me directed, I have levied upon the following described real property situate, lying and being in the County of Sonoma, State of California, and described as follows, to-wit:

Commencing at a point in the most Westerly line of the land conveyed by Wm. Hood to Mrs. Lucy Box by deed dated July 23rd, 1866, and recorded in Book 19 of Deeds, page 413, Sonoma County Records, distant 21.80 chains from the most Southerly corner of the land of Mrs. Lucy Box and most Westerly corner of land conveyed to Sophie A. Tarrant by Decker A. Jewett, by deed dated October 8th, 1883, and Recorded in Book 86 of Deeds, page 602, of Sonoma County Records; thence S. 48° 30' W. 10.80 chains; thence S. 31° W. 18.48 chains; thence N. 28¾° W. 5.53 chains; thence N. 16¾° E. 22.97 chains; thence S. 47¾° E 7.58 chains to the Westerly line of the land conveyed to Mrs Lucy Box; thence along said line S. 24° 30' E. 12.12 chains to the point of beginning, containing twenty-five acres (25 acres) of land, more or less, courses true. Variation 17° 30' East. Right of way for wagon road reserved as surveyed by Geo. P. Aston, Surveyor, through this property. This property is hereby conveyed to Miss Alice Hammond as her sole and separate estate, free of all claim and interest therein in favor of her said mother, Mrs. Alice Hammond, as the same is laid down and delineated upon the map or plan of the said Town, filed in the office of the County Recorder of the County of Sonoma, State of California, on the 9th day of August, A. D., 1887. Also, I do hereby by these presents grant, bargain, sell and convey unto the said party of the second part, and to her heirs and assigns forever, the following described real estate, situated in the Town of Los Guilicos, now Kenwood, County of Sonoma, State of California, to-wit: Commencing at a point on the Southwesterly line of the tract of land conveyed to Lucy Box by William Hood, by deed dated July 23rd, 1866, and recorded in Book 19, page 413, of Sonoma County Records, and which point is the extreme north corner of the tract of land conveyed to Eugene E. Schmitz by this party of the second part by deed dated March 14th, 1888, and recorded in Book 112, page 194, of the same records, said point being 13.66 chains distant from the most Southerly corner of said tract conveyed to Lucy Box; thence leaving said line S. 48¾° W. 13.78 chains; thence N. 22¼° W. 8.60 chains; thence N. 48¾° E. 10.80 chains to said line of the land of Lucy Box; thence along said line S. 42¼° E. 8.14 chains to the point of beginning, containing ten acres of land, courses true, variation 17° 20' East, the party of the second part reserves the right of way for a wagon road through this land of thirty feet width, also beginning at the South corner of the 10 acre tract deeded to the said C. F. Clark, November 16, 1889, which corner is also the most Westerly corner of the 20.76 acre tract of land deeded to E. E. Schmitz, March 14, 1888, by the Sonoma County Land and Improvement Co.; thence S. 31° W. 3.60 chains; thence N. 37¾° W. 7.40 chains to the Eastern boundary line of A. Hammond's 25¾ acre tract; thence N. 31° E. 6.06 chains along said boundary line to the most Westerly corner of said C. F. Clark's 10 acre tract, and thence S. 22½° E. 8.60 chains along Westerly boundary line of said 10 acre tract to the place of beginning, containing 3¾ acres of land, bearings true, magnetic variation 17½° East.

In accordance with said order and command, notice is hereby given that on

Monday, the 12th Day of July, A. D., 1897,

At 1:30 o'clock P. M. of that day, in the City of Santa Rosa, County of Sonoma, in front of the Court House, (at the Fourth street entrance), I will offer for sale at Public Auction and sell to the highest and best bidder for cash, lawful money of the United States, all the right, title and interest of Alice Hammond, of in and to the above described property, said property standing of record in the name of Miss Alice Hammond, or so much thereof, as may be necessary to raise sufficient money to satisfy said judgment with interest and costs.

Fourth of July in Sonoma.

The Fourth of July Committee held a meeting at the City Pavilion last Tuesday evening and discussed matters concerning the celebration. The Finance Committee reported an increase in funds and the amouut now on hand aggregates about one hundred and twenty-five dollars. About seventy-five dollars additional is needed and it is to be hoped that this amount will soon be raised, as the time is very short.

Parties who intend to compete for the prizes in the athletic games and races on Monday, July 5th, must send in their names by Saturday, July 3rd, to Robt. Pasch, Chairman of the Athletic Committee, else they will be barred out.

"Gipsy Queen."

A beautiful entertainment, "The Gipsy Queen," with Gipsies, fairies and brownies, will be given for the benefit of the Congregational Church, Friday evening, July 2nd. There will be ice cream, candies and other good things to eat. Admission 25cts. Reserved seats 10cts extra. The affair is under the excellent management of Mrs. Dr. Davis, Mrs. Duhring and Mrs. Appleton. The leading parts will be acted by Mrs. Emparan as the Gipsy Queen, Miss Claire Hope as Rosalie, and Miss Zelma Johnson as the Fairy Queen. Fifteen young ladies will appear in appropriate Gipsy costumes.

Visit from the Grand President.

The local lodge of Rebekahs received a visit last Thursday evening from Grand President, Mrs. Minerva Karsner, of Oroville. After going through the work of the order for the benefit of the Grand President, the members and their guests repaired to the banquet room, where the choicests of viands were spread on spacious tables. After partaking of the luxuries of the hour and engaging in social conversation for some time, all reluctantly repaired to their respective homes.

A number of Napa delegates were also in attendance.

Off to the Yosemite.

A camping party composed of the following persons started from here Monday morning for the Yosemite Valley: Miss Annie Pemberton, Harry Shaw, S. A. Ringstrom, Miss Alice Chase of San Francisco, Mr. and Mrs. J. P. Weems and son Guy. They will go by team, driving two separate double rigs. The journey to the Valley will be made by way of Stockton and Coulterville. After taking in the sights for eight or ten days the party will start homeward, returning by route of the famous Big Trees of Calaveras county. Mr. Weems left his store in charge of his clerk, Philip Snyder.

New Fish Hatchery.

The managers of the San Francisco and North Pacific Railway have met with great success in depositing trout in the various streams in Sonoma, Marin, Mendocino and Lake counties. The travel of sportsmen over the road has been wonderfully increased during the past few years and city anglers find great pleasure in casting their lines in the streams in the above mentioned counties.

The Company has lately established a fish hatchery in Gibson Canyon, which is a mile from the Court House in Ukiah. The hatchery has a capacity of several million eggs and at the present time about half a million are in various stages of developement.

THE FIRE BUG AGAIN

Shows His Cowardly Hand in Our Midst Once More.

A Building Near the Swiss Hotel Discovered on Fire.

Sonoma's fire bug is again engaged in his infamous pursuit, selecting the dead hour of night for his cowardly and sneaking tactics. Although several attempts of this fiend in human form to burn the town have been frustrated, he still possesses an abundance of head-strong, insane persistency, which should, and probably will be brought to an abrupt end by a long term in the quarries at Folsom prison or the jute mill at San Quentin.

A few months ago, as was at that time reported in these columns, a shed connected with Hartin's butcher shop was set on fire a short time before daylight, and all that saved the south side of town from being reduced to ashes was the fortunate arrival of one of the employees of the shop, who extinguished the flames in their incipiency. It was perfectly evident that the fire was of incendiary origin, as several sacks saturated with coal oil and a bottle containing a large amount of oil was left by the fiend as evidence of his cowardice.

Now another sample of the criminal lunacy of this would-be life and property destroyer has been brought to light. Shortly after 1 o'clock Wednesday morning Charley Hoy, proprietor of the Wing Sing Laundry, on the west side of the Plaza, observed a man standing on the sidewalk near his place of business, who, upon being discovered, walked hurriedly toward Wegner's drug store. Charley paid no attention to the queer-acting nighthawk and closed his laundry and retired. About an hour later a loud cry of alarm from one of the Chinamen awakened everyone in the house. A fire had been discovered by the man who gave the alarm. The blaze was creeping up the side of a building connecting Hoy's wood shed with the Swiss Hotel. By prompt action the Chinamen succeeded in subdueing the flames before any great amount of damage had been accomplished. The instigator of the crime had evidently been frightened off by the Chinaman who discovered the fire and gave the alarm, for in making his exit he left behind a bottle of coal oil, part of which had been sprinkled on the wall of the building.

The finger of suspicion points in several directions and there is talk of keeping watch after dark from now on. If this monster is captured he will be severely dealt with, so it would probably be quite the proper thing for him to mend his ways.

A Deserved Compliment.

The Santa Rosa Press, in speaking of Miss Claire Hope, one of Sonoma's talented vocalists, who appeared at the Native Sons' concert in the City of Roses, last Tuesday evening, says: "The audience was prepared to hear a gem when Miss Claire Hope of Sonoma appeared. The fair singer scored her greatest success in Santa Rosa last evening. The audience was charmed with her exquisite rendering of that most beautiful song, "For all Eternity," ("Enternamente") Angelo Mascheroni. The singer's expression as she warbled the enchanting words was very marked. Miss Hope, after a warm encore, sang a pretty flower song in which she excelled herself, and again the audience recalled her. Miss Hope did not respond to the second encore, which was a disappointment to all."

Lady Moore Will Run.

On Saturday, July 3rd, the people of Sebastopol are going to celebrate Independence Day by a grand patriotic demonstration. Horse racing will be a feature of the day. Frank Burris' Lady Moore has been entered in one race and a large delegation of Sonoma people will drive to Sebastopol with the expectation of seeing this fleet-footed runner carry away the golden trophy.

RUNAWAY ON A GRADE

A Butcher, a Calf and Two Boys Have a Narrow Escape.

Unpleasant Experience of Max Fessler and Three Companions.

Max Fessler, a butcher in the employ of Henry Hartin, has been a man of the world for some time. He has had many varied experiences and mishaps, but none so thrilling as a little incident which occurred last Thursday afternoon, in which a bellowing calf, two frightened boys and himself played the leading part.

Max and his companions, Leo Caminata and James Dorman, were returning from the Norborm place, in the mountains north of town, with a calf bound with cords in the bed of the wagon. While descending a steep, narrow grade the wagon overturned, precipitating the occupants to the ground. The horses started to run, but Max held on to the reins with a firm grasp and after being dragged for some distance he succeeded in bringing the terrified steeds to a stand still. In the mean time the two boys were rolling down the grade and fortunately reached the bottom without injury, save a few slight face bruises received by young Dorman. While all this was going on the calf played his part in the drama by kicking himself loose and making his exit.

The ruins of the catastrophe were gathered together and all in all they made an appalling sight. The wagon had been damaged and the wheels were turned heavenward, as if praying for mercy on Max and his calf. The boys were covered with a thick coat of dust and young Dorman presented the appearance of a defeated prize fighter. Leo smiled at Max, who was groaning with the pain of his injuries, and the young bullock scaled the side of the canyon bellowing like a hound on the fresh scent of a deer.

The three unfortunates made their way into town and Max was immediately put to bed. Upon examination it was found that both shoulders had been injured and other bruises were received about the body.

A REPORTER'S OBSERVATION.

Notes Photographed Through the Field of News.

Jack McCarthy, the well-known international base ball player, has been engaged as bar-keeper by Harry N. Krager of the "Criterion," Santa Rosa. Mr. McCarthy, in addition to winning fame on the diamond, is a noted saloon man, and what he don't know about the business isn't worth knowing.

The guests registered at the Union Hotel this week are as follows: M. Samuels, San Francisco; H. S. Munfrey, McGill's; J. W. Warford, San Francisco; H. F. Ofdenkamp, San Francisco; J. J. Vieir, Petaluma; Frank Harold and wife, San Francisco; Geo. W. Geauque, San Francisco; Frank M. Ames, San Francisco.

The little son born to Mr. and Mrs Fred. Spaulding last Sunday morning was not fated to breathe this mortal air, for shortly after its birth death stole it away. The bereaved parents mourn this sad loss and have the sympathy of their many friends in their grief. The condition of Mrs. Spaulding is still very critical and at one time little hope was entertained for her recovery.

Supplies for the Home.

Fred. T. Duhring of this place was the lowest bidder for supplying eggs to the California Home for the coming year. The bids were as follows: F. T. Duhring, $475; Getz Bros., $537.50; Hilmer, Breidhoff & Schultz, $500; Golden Gate Milling Company, $625. As stated in last week's paper G. H. Hotz of this place was the lowest bidder on dry goods.

These proposals, together with many others, were referred to a committee consisting of the President of the Board, A. P. Overton, Secretary, Wm. P. Edwards, and Superintendent, Dr. A. E. Osborne, for the purpose of strict examination and verification with instructions and to make awards in accordance with the findings.

Wegner Villa.

Wegner Villa, near Glen Ellen, is the favorite retreat of many distinguished guests this season. Last Tuesday a gay party from that resort drove to Santa Rosa, where they were royally entertained at luncheon by Mrs. J. S. Cherry, a cousin of Senator Mark Hanna of Ohio. Among those in the party were Mrs. Snyder, Mrs. J. Duncan and Miss Hale of San Francisco, Miss Brook of Cleveland, Ohio, (a cousin of Senator Hanna), and Abe Lachman of the firm of Lachman & Jacobi of San Francisco.

GRAPES AND THE APPENDIX.

The Little Seeds Are Not So Dangerous as Has Been Claimed.

Things have been said about the baneful and delicious juice of the grape ever since the olden time when Noah found out about it and came thereby to grief, but even before that men ate grapes, and only within the last decade have they been talked to about that. It is only since surgeons began to make money hunting for grape seeds in the vermiform appendix that people have been afraid to eat grapes and to eat them straight.

It now appears that in all the thousands of cases famous, and possibly in some cases infamous, in which this new fashioned surgical operation has been performed there is not one case in which a grape seed or any other little bullet shaped thing has been found in the vermiform appendix. The whole interior of the appendix is only big enough to admit a medium sized darning needle. Nobody knows what it is there for, but it must have been useful at some time. It is a case of the survival of the unfit, like the wisdom teeth, which are of so little use to most people, and the tonsils, which cause so much trouble now and then.

The tonsils and the appendix are both unused parts of the body and peculiarly liable to disease because they are not strengthened by use. If inflammation attacks them, they are unable to resist. Thus many diseases which have been ascribed to peritonitis or colic or a mysterious providence of some kind have been due to the diseased condition of this little useless organ of the human system, and if the trouble had been discovered in time the appendix could have been removed, and all would have been well.

The remedy, therefore, is not in avoiding grape seeds, which do not cause the trouble, but in keeping as well and as strong as possible, and in case of sudden illness calling a reliable doctor, who will know what the matter is. Somebody once said that most people use a doctor to enable them to sin against the laws of nature with impunity. But that is a bad use for him.—Washington Times.

A BIT OF HISTORY.

Germantown, Pa., Was Once Called the Capital of the Country.

A pupil in the Boys' Grammar school, on Lafayette street, Germantown, was asked by his teacher "when the first congress occupied the Germantown academy, located on West School lane." It was a puzzle, of course, to the young scholar, who was at a loss to find anything in print verifying such an event. The facts, however, from which the false impression has frequently obtained are as follows: The government of the United States was first inaugurated in New York in 1789, but by act of congress Philadelphia was made the capital of the nation from 1790 until 1800. In 1793 the yellow fever became epidemic in this city, and it was in October of that year that the governor of Pennsylvania asked the board of trustees to accommodate the house of assembly, and a similar request for quarters came from congress.

At the November meeting following the board proffered to congress the choice of the school building, but there is no minute evidence to show that congress accepted the generous offer. At this time Washington resided in Germantown, and the town was spoken of as the government place of the state, and also of the United States. Jefferson, then secretary of state, and Randolph, attorney general, occupied the building, some years ago torn down to extend the site on which the National bank now stands, at Main street and School lane.

So, with Washington, Thomas Jefferson and John Randolph residing in Germantown, it is not strange that the conclusion should be formed that congress was in session at the same time. Although the Germantown academy never had the honor of accommodating congress, a few years later, in 1798, when the yellow fever made its appearance again in this city, the banks of North America and of Pennsylvania did find a temporary place of safety in the old academy.—Philadelphia Record.

Lace Lappets.

If you know anybody who has a pair of old fashioned lace lappets, says a fashion writer, you may recommend her to utilize these in the following fashion: On the next evening or dinner gown the lappets may begin almost touching each other at the waist, and, gradually parting, form a trimming down the front of the skirt, ending in immense quadruple bows of satin ribbon, which must be stabbed through with diamond buttons or clasps, or, another way, as the cookery books say, line the lappets with velvet or satin of some bright color and turn them into bretelles, crossing the shoulders and meeting just above the waist, back and front. Should any one wish to insult and vulgarize her beautiful old lace with a touch of modernity she can buy rhinestones or imitation emeralds, sapphires or rubies and sew them all over it.

Law For the Poor.

The Legal Aid society gives legal assistance to the poor of New York who cannot afford lawyers' fees. It has existed 20 years, has cared for 80,000 cases and secured over $500,000 to its needy clients. It is supported by voluntary contributions.

One of Milton's biographers says that nearly 20 years elapsed between the sketching out of the plan of "Paradise Lost" and the completion of that work. The actual labor of composition was condensed into three years.

There is a smaller percentage of light gold coins afloat in London than anywhere else in the United Kingdom.

When Schumann was in love, he wrote, "I wish I were a smile, that I might play about your cheeks."

Roman Epicures.

When at its zenith, the Roman empire laid all the barbaric countries of the world under contribution to supply the tables of its nobles and wealthy citizens with the fine luxuries of life. Asia and Africa poured in the rich spices and fruits of the tropics; Germany and the great north countries raised the grains and wild berries; Italy and the fertile land of the Franks cultivated the vineyards to make or express the wines; every strip of seacoast from the Mediterranean to the Baltic contributed its quota of fish, and the forests of Brittany yielded the wild game of the woods—birds, beasts and fowls—for the banquets of the proud, dissolute rulers of the vast empire. With the choice products of a great world so easily obtained there were wanton waste, foolish extravagance and a strange disregard of the value of expensive luxuries, and the historian dwelling upon these times delights in recapitulating the various articles of diet arranged in tempting manner upon the groaning tables at the great feasts and banquets.

But, excepting Nero's dish of peacock tongues and Cleopatra's cup of wine with the dissolved pearls in it, the menu of our modern banquets would compare favorably with those spread in the times when gluttony, licentiousness and greed for luxury were insidiously sapping the strength of Rome.—George E. Walsh in Lippincott's.

Two Prime Ministers.

One day Sir Henry Parkes, the late prime minister for New South Wales, was reading a recently published life of Mr. Gladstone, and laying down the volume for a moment he said: "I was thinking when reading it of a comparison between Mr. Gladstone's life and my own. When he was at Eton preparing himself for Oxford, enjoying all the advantages of a good education, with plenty of money, and being trained in every way for his future position as a statesman, I was working on a rope walk at 4 pence a day and suffered such cruel treatment that I was knocked down with a crowbar and did not recover my senses for half an hour. From the rope walk I went to labor in a brickyard, where I was again brutally used, and when Mr. Gladstone was at Oxford I was breaking stones on the queen's highway, with hardly enough clothing to protect me from the cold." Truly a striking and dramatic contrast between the early years of two prime ministers.—Pearson's Weekly.

His Romance.

"Of course there's a romance in my life," assented Fromer, when it was intimated that there was nothing of sentiment in his composition.

"I felt when I saw her, 'tis she or none on earth,' is what Schiller wrote in his 'Bride of Messina.' That is exactly what I felt when I met the woman of my romance. Nobody can describe a woman. You can rave about her classic features, her speaking eyes, her neck like a pillar of marble touched with life, the graceful psyche knot that she twists to a crown of beauty, and all that kind of rant, but after it is done you can meet the woman and not know her. When I can picture a soul, I'll go into the business.

"Of course I was young when I met her. Otherwise I would have shown some slight imitation of sense and surrendered by degrees. Love at first sight is not uncommon, but it is restrained by a sense of propriety, by pride or by some other modifying influence. Every force in my being was co-operative. All impelled me to fall in love. There was no check, and I fell to the very depths.

"She refused me very prettily and very properly. I asked her if I could cherish no hope, intimating that to deprive me of hope would be immediately fatal. She gave me a very scant allowance. Then I went proudly away to win a fortune that I might lay it at her feet as an additional inducement. In four years I returned. The woman was there, just as I had left her, but not my ideal. While I was trying for moral strength enough to recall my vows she was mustering courage sufficient to tell me she was engaged to another man. She spoke first. Then I was so mad at the other fellow, whom I should have blessed, that I insisted she had broken my heart."—Detroit Free Press.
